### EDUCATION

#### BS FOOD TECHNOLOGY

University of the Philippines,  
Diliman

2014

### SUMMARY

I am a QA Engineer with 2 years of experience in test case creation and thorough execution of black-box and functionality tests. I have knowledge in basic Java, Structured Query Language (SQL), and AWS EC2. I am passionate about software testing and I plan to further expand my skills by exploring automated testing technologies such as Selenium, among others.

### EMPLOYMENT HISTORY

#### QA ENGINEER

Softwares Ventures, Inc.

##### Oct 2021 - Present

- Creation and execution of test cases for various tools and web applications
- Set up the QA test environment for the team:
  - Creation of server instances in AWS EC2 to use as the test environment
  - Installed and set up Payara, Glassfish, Docker, Cassandra databases, SOLR cores via CLI
  - Deployment of the applications to the QA test environment prior to testing (deployment in Payara application server, Docker image deployment in Linux via CLI)
  - Set up of the databases to use for testing (Cassandra via CQL, SOLR in CLI and admin UI)
- Functional and GUI testing of web applications in various browsers in Windows and their adaptability in mobile browsers (Android OS)
- Testing of mobile applications integrated with a web application and database
- API testing using Postman
- Verification of resolved issues (bug recording)
- Part of Agile setup - daily scrum, JIRA kanban board management and poker planning
- Projects tested under CI/CD: Timekeeper App (has mobile app and web app), KYC (integrated with Megamatcher)
- Underwent basic Java training and basic SQL and database management training
